Most Honoured & Dear Sir.

I am sorry the I haven't been able to keep useful contact with your goodself ever since writing my last letter an year ago.

I believe this time has come for true patriots to do something for the country just inder to save it and the lofty values it stands for. Unless something effective is done to arrest this hasty and downward trend in our public life that has been lately evident (as

P.T.O.

represented by certain recent-
legislative constitutional amendment-
measures & so on) we will
soon find that life will not be
worth living and all of us will
be slaves of an almighty state.

I want to discuss some
very important matters with your
goodself and I shall be glad if
you sir would permit me to do so
We are living in very uncertain
and cruel times. Something very
definite must be done to save
the country and our best
national traditions & ways of life.
I can't write anything more at
present. I am eagerly awaiting
your reply.

With great personal regard
& good wishes. Yours Hard

Most respectfully yours
J.T. Karanth
